

Nobody repairs
Lenze devices
better than
we do

Nobody repairs Lenze devices better than we do

Lenze products deliver outstanding performance – and we make sure it stays that way.

With our extended Original Repair Service, we offer five customized repair options tailored precisely to your individual needs.

As the experts in our own products, we ensure the highest quality through:

- 100% use of original Lenze parts
- Repairs performed to manufacturer standards
- 24-month warranty*
- Fast service upon request – reducing costs and ensuring efficient use of your personnel resources

We ensure the availability of your systems and machines

In certain cases, a fast repair of a high-quality Lenze drive can be a smart alternative to replacing the device – both in terms of quality and cost-effectiveness.

This helps you minimize costly downtime and eliminates the need to maintain large spare parts inventories.

Why choose Lenze Original Repair?

- **Maximum safety** thanks to the precision of our expert technicians
- **Guaranteed use of original parts** for consistently high quality
- **Extended service life** of your valuable equipment
- **Reduced downtime** and minimized outage costs
- **Optimized performance** through professional repairs
- **Long-term cost savings** compared to new purchases
- **Environmentally friendly** through resource conservation

Our original repair services

Inspection

**Technical inspection and
evaluation**

We analyze the condition of your device using professional fault diagnostics and provide detailed documentation.

Your benefits: Early detection of potential issues, prevention of costly consequential damage, and a solid basis for making informed decisions about further action.

Small repair

**Fast solution for urgent
issues**

We resolve specific problems by replacing damaged components with original Lenze parts.

Your benefits: Immediate restoration of device functionality, cost efficiency through minimal effort, and up to 24 months warranty on repaired parts.

Repair

**Complete repair of your
device**

We fully restore your device and replace all necessary components with original Lenze parts.

Your benefits: Complete restoration of functionality to like-new condition, 24-month warranty on the entire device, and a cost-effective alternative to purchasing new equipment.

Modification

**Adapting your device to
new requirements**

We tailor your device to meet changing conditions – both technically and functionally.

Your benefits: Optimized performance, expanded functionality, adaptation to new system requirements, and a 24-month warranty on the entire device.

Emergency Repair

**When every minute
counts**

We restore the basic functionality of your device as quickly as possible — when time is critical. Your benefits: Minimization of production downtime, immediate restoration of operational readiness, and a pragmatic interim solution.
